

Jury's Inn

What services does Cannon Hygiene provide to Jury's Inn?

Specialist city centre hotel chain Jury's Inn is a prestigious account for Cannon. With 25 hotels across the UK, Cannon supplies every single outlet with soap and toilet roll dispensers, air care, feminine hygiene units, vending machines and the Urinal Aquasan incorporating the Cannon Water Management System. Cannon is also installing a set of 3 Cannon Air Rapide hand dryers in a chrome finish.

How has Cannon helped the client make cost savings?

By tailoring a standard package for the hotel chain across all the outlets, Cannon has made efficient cost savings to the client. Prior to the contract, the chain was purchasing washroom supplies from different companies, but Cannon has centralized this and as a result, reduced costs. For example, the 11,000 cases of 3x20 sheet toilet rolls the chain was purchasing has been switched to the Cannon Mini-Jumbo, at a cost saving of 29.8% annually. By installing energy and water saving products Jury's Inn have also made associated cost savings.

What energy and water saving efficiencies has Cannon introduced?

The new Cannon Air Rapide hand dryer uses infra red sensors for a hygienic hands free operation and is energy efficient using only 1.7KW to dry hands in just 13 seconds. This provides significant energy savings over traditional warm air dryers, which take 30 seconds or more to dry hands.

The Cannon Water Management System is an autoflush system for urinals that are fed by a water cistern, which can reduce water consumption to urinals by up to 90%. In conjunction with this, Jury's Inn also has the Cannon Urinal Aquasan installed, which penetrates uric salts making them soluble. These are then washed away at controlled intervals (6 times in 24 hours) by the Cannon Water Management System, reducing uric scale build up and associated maintenance costs. The patented citrus Bio Block and hygiene seal also prevent malodours, thus improving overall washroom hygiene.

What special requirements did the client have?

Jury's Inn wanted a sleek, modern looking washroom and chose the chrome range of soap dispensers and Cannon Air Rapide hand dryers.
